### STEAM FOUNDRY!

—OF—

TURTON & SERCOMB,

296, 298, 300, 302 and 304 West Water St.

IS STILL IN FULL BLAST WORKING DAY AND night to supply the daily increasing wants of the Rising West and other States.

In order the better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes and other machines for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never were in a better position for doing business, and

in any department.

In regard to the character of the work, they apply to The Oldest Establishment in the State. The Proprietors refer to that in successful operation through the country as their best recommendation, let that speak for itself. All they can say is, that they are Practical Mechanics and know how work should be done, as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, of the most approved principle.

They have always on hand a large stock of [illegible] WORKS, such as GRATES AND CYLINDER COOKS, OIL CUPS, AIR COCKS, and STEAM WHISTLES. Also TURTON'S [illegible] which they will sell at the lowest cash price.

They are also Agents for FAIRMAN'S PATENT [illegible] which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the OLD EAGLE worthy of the reputation it has already gained.

Their motto is "Excelsior."

JOHN SERCOMB, Proprietors

## Wisconsin Almanac and Annual Register for 1857.

We shall publish [illegible] about the 1st of January, No. 2 of our WISCONSIN ANNUAL REGISTER, containing, in addition to the Calendar for the year, Description of Wisconsin, List of Members of all the successive Legislatures, Tables of all the general Elections held in the State, Census of 1855 by towns, &c., &c., an Appendix, giving much other valuable matter. We propose to add to the matter contained in the Register for 1856 the Election Returns for last November, by towns—the new Apportionment Bill—the Assessment and Equalization of Property for 1856—the Vote of the Union for President—besides other valuable matter for reference, the whole making a pamphlet of about 120 pages.

Price for single copies [illegible]; a liberal discount made to those who buy to sell again. RUFUS KING & CO.

## The Sentinel—Past, Present and Future.

Yesterday completed *twelve* years since the first number of the Daily *Sentinel* was issued in Milwaukee. From that date (Dec. 9, 1844) to the present, notwithstanding the usual "lets and hindrances," incident to newspaper printing, the *Sentinel* has been regularly issued every week day morning, Holidays excepted, without a single intermission. It commenced life as a small five column sheet, boasting a circulation of 200 or 300 copies, and published in a thriving little town of six, or seven thousand people. It has, in these twelve years, attained to very respectable dimensions, circulates 1,600 copies and is published in a busy and beautiful city of 40,000 souls. The *Sentinel* Office in 1844 might have been worth $2,000. Now, in 1856, we should be very loth to put it at less than $25,000 or $30,000. The aggregate circulation of Daily and Weekly in 1844 was 925 copies. On the 1st of December 1856, our aggregate circulation, Daily, Tri-Weekly and Weekly, was 700, and steadily increasing. The difference in the Advertising and Job business of the office, between '44 and '56, is still greater than in the circulation. There are now employed in and about the *Sentinel* Office, some 40 persons, whose aggregate wages per week vary from $250 to $300. Add to this our weekly expenditures for paper, ink, fuel, gas, telegraphing, insurance, &c., and our readers will have some notion of what the establishment costs per week. For the year 1855, the total expenses of our Office amounted to $31,[illegible], averaging $611.75 per week. During the current year, our average expenses have not been less than $700 per week. It is satisfactory to know that our business has increased in proportion, and that the circulation, advertising and job patronage of the *Sentinel* has never been so large as now.

With the incoming year we shall make renewed efforts to deserve the very liberal and constantly increasing patronage which the *Sentinel* now enjoys. As the circulation of our paper is very much the largest of any published in the State, and being the oldest and best-known of the Wisconsin daily press, it offers unrivalled advantages to ADVERTISERS. Our JOB OFFICE has been recently stocked anew with a full and complete assortment of material, enabling us to fill all orders for every variety of Book, Pamphlet, Card, Note, Handbill, Rail Road, or Bill Printing, in the best style, at the shortest notice, and on the cheapest terms. In all these particulars, we intend that the *Sentinel* Job Office shall be without a superior in the North West.—Of our Daily, Tri-Weekly and Weekly issues we will only say that they will be devoted, as heretofore, to the best interests of our city and State and to the defence and diffusion of FREE Principles, as illustrated in the doctrines of the REPUBLICAN Party, and that no pains or expense will be spared by the proprietors to make the *Sentinel*, at all times, the vehicle of the *latest news*, political, commercial and general. It is their ambition to maintain the position which the *Sentinel* has won among the leading presses of the North West, and to keep pace, in its improvement, with the wonderful progress of our City and State in all the elements of material prosperity, enlightened civilization and social refinement. Give us then, kind friends and patrons, your aid and countenance for the coming year, and we promise to make the *Sentinel* still more worthy of your confidence and support and of the prosperous and promising city and glorious State in which it is published.

ADDRESS OF THE REPUBLICAN STATE COMMITTEE.—Our State Central Committee has issued an able Address to the people of Wisconsin which we shall endeavor to find room for in a day or two.

MINNESOTA AS A STATE.—The Territory of Minnesota is now supposed to contain a population of 200,000, and is very rapidly increasing in numbers. The subject of admission to the Union is being discussed in the papers, and will doubtless occupy the attention of the Legislature this winter. Opinions differ as to the mode of dividing the immense territory in forming a State. There is sufficient population for *two* States already.

☞ On Tuesday, the 2d inst., the wind being northeast, the water rose at Toledo five feet above ordinary height. On Wednesday morning the wind shifted to the southwest, and by afternoon the water fell to a point as much below the usual height as it was in the morning above. The flats in the river were laid bare, and the ferry boat, in consequence, ceased to run. So says the *Blade*.

## The Aid Societies.

The Missouri Democrat, one of the Fusion papers during the late campaign, has got rather tired of the "Aid Societies," and publishes a letter from Kansas, in which it is distinctly stated that those societies, after inducing people to go there upon the promise of being provisioned, etc., for a year, abandoned them as soon as they arrived, and left them to shift for themselves the moment they had made all the political capital out of them they could.

This is the beginning of a splenetic tirade in yesterday's *News* against the "Aid Societies," who have helped along the good work of planting Free Institutions in Kansas. The article starts with the bold falsehood that the Missouri *Democrat* was "one of the Fusion papers during the late campaign." So far from this being the fact, the *Democrat* is the leading organ of St. Louis Democracy and a zealous supporter, throughout the late canvass, of Buchanan and Breckenridge. It has indeed, frequently and fearlessly exposed the villainous outrages of the "Border Ruffians" and the wretched imbecility and criminal inaction of the Pierce Administration. But it could not do less and retain its position as a fearless, out spoken, independent Democratic journal. As to the letter from Kansas, to which the *News* refers, its statements are fully met and most satisfactorily answered by the Secretary of the Chicago Aid Society in a communication to the *Tribune* of that city. Not a tittle of proof exists that a single dollar of the Kansas Aid Fund has been mis-applied, while the evidence is abundant and incontrovertible that the generous contributions of the Freedom loving men and women of the East and West have done and are doing a world of good in Kansas. Let them persevere in the work until our brethren in Kansas are sufficiently strengthened for the impending and decisive struggle with the gathering hosts of SLAVERY.

THE SALE OF THE SCHOONER DEAN RICHMOND.—The Schooner *Dean Richmond* was sold in Liverpool at a *loss* of about $[illegible]00, instead of at a profit, as was reported.

## The Trade of Western and North-Western Wisconsin, Iowa and Minnesota—To our Wholesale Merchants.

We had a call yesterday from Mr. W[illegible], late engineer of the La Crosse and Mil. R. R., who is now located at La Crosse in business, and who has since his residence in that country, like every other intelligent man who remains long enough there to know anything of its trade, become impressed with its present magnitude and prospective growth, and desires to call the attention of many old friends here to the subject. We published an article some days since, based upon the Steamboat business of the upper Mississippi, designed to pave the way for further remarks upon this subject, which we regard as one of the greatest importance to the business interests of our city.

In again alluding to the matter let us mention one fact showing the extent of the traffic on the Mississippi, which crowds that great thoroughfare early in the Spring, to wit:—that in the first 18 days of June of the present year about 180 *steamers touched at La Crosse*—AN AVERAGE OF TEN BOATS PER DAY! That number of boats will not suffice for another year, for the population and the wants of that population are greatly increased.

On the opening of navigation next spring, the Milwaukee and Mississippi Railroad will be completed to Prairie du Chien, ready to bring hither the merchants of the North west, and to transport their goods to the river. Doubtless many of those merchants will find their way to our city of their own accord, but our Wholesale Houses will not exhibit that spirit of energy and far sighted wisdom which belongs to the true merchant, if they sit still and wait for business to come to them. They have but to stretch out their hands to grasp an immense trade immediately on the opening of navigation in 1857.—Will they do it?

We are ready to confess that, with all that we have been told in our numerous exchanges of the importance of the business referred to, we have not realized it, and we are sure that the merchants of Milwaukee do not begin to appreciate it. If they do not, let them straightway reflect upon it. Take one of Chapman's maps, containing Wisconsin, Iowa and Minnesota, and spreading it out before you on the counting house desk, study it carefully. See the sweeps of trade which can be commanded from Prairie du Chien. Look over into Northern Iowa, and see thriving towns, the merchants of which are doing a prosperous business with the people of a well settled and very fertile agricultural country. Look into Minnesota, already containing over 200,000 people, who must be supplied with almost everything from the start. Look at the growing towns along the Mississippi river. Follow up the large streams which come down from the pineries and farming lands of North western Wisconsin, and see villages springing into existence everywhere, and the whole region beginning to teem with a busy, thriving population.—Surely here is a trade worth striving for, MERCHANTS OF MILWAUKEE! What do you mean to do about it?

We can tell you what others, whose places of business are farther from this western region and whose facilities for reaching it are less than yours, are doing about it. Members and agents of their firms are out already, making the acquaintance of these people and will spend the winter among them, urging them to try *their* markets. They will with all the energy and diligence of wide awake men, place their business cards and circulars in the hands of all the merchants whom they reach. They will *not* say a good word for Milwaukee and her merchants everywhere, of course they will! Perhaps it is as well to rely upon *their* representations to direct trade this way, but we think not, and we have written this article in order that such of our merchants as have not yet given sufficient consideration to the subject may do so without delay.

The field is an inviting one to enterprising merchants. A vast trade may be secured if they only will have it, and a tide of wealth poured into their laps, of which neither they, nor we can form any adequate conception now. Will they act?

## The "Port Huron and Milwaukee Railway."

The *News* publishes an extract from a letter from a gentleman at Port Huron, to a friend in this city, in which he says:

The company have secured the finest depot grounds here on the continent. Men of means and energy have taken hold of the enterprise and the contractors are now erecting their shanties and setting their men at work, all along the line. Two years at the farthest will see the road completed to Owosso, and by that time the Detroit and Milwaukee will be completed to Grand Haven.

The grade and bridging of the Sarnia Branch of the Great Western, is all done with the exception of some six miles. The freight and passenger depots and car buildings, are erected at Port Sarnia, (opposite this place) and early next fall they will have the track laid and cars running. Our distance (by traveled routes) to New York, will then be shortened over 140 miles, and when the Port Huron and Milwaukee Railway is completed, your travel to New York, by this route, will be 45 miles less than over the Detroit and Milwaukee, by Detroit, and over 150 less than by Chicago, your present route.

By the Report of the Detroit and Milwaukee Railroad Company, which we gave the other day, it was seen that the writer of the above is very far out in his calculations as to the time of completion of that road, and we hope that he is as far out in his estimate of the time of completing the Port Huron and Milwaukee Railroad. The latter, with the Sarnia Branch of the Great Western Railroad, is in truth the Air Line route, and must command a large business from the start. Practically, the construction of the two lines is equivalent to a double track road for nearly 200 miles of the distance between Grand Haven and Niagara Falls.

## Board of Trade Meeting.

MESSRS. EDITORS:—Allow me, through your columns, to urge upon the business men of the city, the necessity of a full and punctual attendance at the Board of Trade Meeting, to be held on Friday evening of this week. The matters to be discussed are of vital importance to the reputation of Milwaukee, and its future growth and prosperity.

In order to have an ANNUAL REPORT that will be of service to us, it is essential that the statistics and details be well digested and judiciously selected. In order to do this, *all* interests should be represented. Let Bankers, Railroad men, Merchants, Mechanics and in fact all classes take part in arranging the plan of the Report.

It has been suggested that a Railroad map be inserted in the Report, and this will require the attention of every Railroad Company in the city, in order to have it correct and reliable.

Another thing of importance to the city is the careful preparation of a statement of the wants of the city in the way of Banks, Manufactories, &c., &c., and the only way to arrive at these is by general discussion and suggestion.

No man is so busy at this time as not to be able to devote *one* evening to the interests of the noble and growing city of Milwaukee. Let the room be crowded on Friday evening, promptly at [illegible] o'clock. A MEMBER.

Milwaukee, Dec. 10, 1856.

HAD HIM THERE.—We had one of the best jokes of the season in the House to day. Etheridge, of Tennessee, was speaking of the attachment of the slaves to their masters, and of their happy exception from the cares and anxieties which perplex their masters. By way of illustration, the gentleman said, "Now, my slaves would follow me to Boston, and no one could seduce or entice them from me, and while I am lying awake nights to devise ways and means to pay the next execution which shall come against me, my slaves are enjoying the most quiet and undisturbed slumbers." "Stop there," said Day, of Ohio, "your slaves know very well that if you do not pay the execution against you, they must." The gentleman from Tennessee frankly admitted the justice of the correction.—*Wash. Cor. Eve. Post.*

JACOB LITTLE'S FAILURE—ITS EFFECT ON STOCKS.—The N. Y. *Tribune* of the 8th says:

[illegible] est of Mr. Little's purchases to fill his shorts appears thus far to have had no effect in diminishing the business of the street, and the variation in the prices is on the average scarcely 1 per cent.

There is no new feature of importance in the matter of Mr. Jacob Little's failure. He has yet made no proposition of settlement of his contracts excepting to take the lowest prices of Friday as the basis. This is objected to by some of his creditors who argue that he caused low prices to rule at the morning Board by throwing large quantities of cash stock upon the market, and the average prices of the day would be fairer. He is not yet prepared to say when he can pay them in full. He only expresses his intention to settle upon honorable terms. The amount of his differences has probably been generally over estimated, and the best judges now estimate that they will fall short of half a million.—One house holds over $100,000 against him, another 70,000, another 40,000, two others about [illegible],000 each, and beyond these the amount must be moderate. Most of the creditors have expressed their determination to settle with Mr. Little upon whatever fair terms he proposes, and no doubt is expressed of his readmittance to the Board.

On the same day Mr. & Miss. R. R. stocks were quoted—[illegible] shares at 79½ and 200 do. at [illegible] per 60.

## Lead Mining in Wisconsin.

The Grant Co. *Herald* has the following remarks in relation to the business of mining:

MINING.—So many new, easier and more certain methods of making money have lately come to hand, that the old hard and risky pursuit of mining is being abandoned. We believe the number of men now engaged in mining is a third less than a year ago, while those who have deserted the mines were the best managers and the most successful miners. Those who remain digging are such as a long life devoted to the shaft has made unfit for any other pursuit; they will probably dig to the end of their time.

The price of mineral has failed to advance with other products of the country. Living has grown dear at a rapider rate than the product of the miner's labor. Lead may rise and the cost of living may come down; in the event of either, mining would be resumed as briskly as ever; but, all considered, we doubt whether the annual product of lead is ever what it has been. We are sure of one thing, the mining interest will ever be far less than first in importance in the Wisconsin lead region. It was always the leading business until a few years ago—a majority of our men being miners and that being the great wealth producing pursuit of the country. It certainly ranks no higher now than third in importance. We leave the reader to say whether the country is more or less prosperous since the change.

May it not be that with the application of capital and machinery, as is now being done at Wiota, by the Company, a splendid specimen of whose mineral is seen in the window of Powers' office in this city, the business of mining may be restored to its former vigor, and go on increasing in importance? Such, we think, has been the opinion of many familiar for years with the business.

LOSS OF LIFE ON RAILROADS.—The Annual Report of the Railroad Commissioner of New York discloses some interesting facts relative to the safety of Railroad travelling. We take the following from a summary of its tables:

Of the persons killed, eight per cent. were passengers, thirty-one per cent. employees, and sixty one per cent. neither passengers nor employees. Four fifths of the passengers killed, and one third of those injured, suffered in consequence of their own imprudence. Three fifths of the deaths and one fourth of the injuries not resulting in death, were caused by persons walking upon the track, or attempting to cross the track at public highways. One passenger was killed out of every 1,262,165 who traveled and one was either injured or killed out of every 341,125. Exclusive of all accidents growing out of the imprudence and fault of the passengers themselves, but one was killed out of every [illegible],310,828 who traveled, and one was either injured or killed out of every 665,300.

NEW LONDON, WAUPACCA COUNTY.—This little town is an illustration of the growth of Wisconsin. The *Times*, published there, says:

Two years ago we numbered only 31 inhabitants. But now mark the change! We have 600 inhabitants, of a genuine, Yankee enterprising spirit; full 150 dwellings and stores, a good portion of which would be ornaments to most any large town; a printing office and newspaper, which is determined to be up with its older contemporaries in point of energy; three hotels, eleven stores, three doctors, one lawyer, three clergyman.

THE LABOR OF GETTING OUT OF RUSSIA.—The Nord of Brussels, contains the following from its Moscow correspondent:

The labor of leaving Russia is one worthy of Hercules. In order to obtain a passport at St. Petersburg, I have been compelled to undergo the following torture:

1. To be announced three times in the public journals.
2. To obtain a certificate of the execution of this formality.
3. To carry this certificate to the police magistrate of the quarter, who furnished me with a second certificate.
4. To betake myself to the bureau of Prince Dolgorouki, where this certificate was exchanged for a counter mark.
5. To go to the *bureau d'address*, where another certificate was given me.
6. To run to the Governor General, who furnishes me with a passport.
7. To exhibit this passport to the steam packet office before taking a passage. I was particularly fortunate, for the accomplishment of the above formalities took up only three days; many others have been detained three weeks.

## A Sad Event.

Miss Anne Lacharse, daughter of James M. Lacharse of this city, died on board the Arago, on the 3d inst., after a short illness from brain fever, aged 19 years. This young lady was engaged to be married to a gentleman of this city, immediately on her arrival, and the bridal wreath was bespoken. To day, the flowers that were to have adorned her nuptials are strewn upon the bridal bed of death! She was buried in her wedding robes this morning.

The delay in the arrival of the steamer caused some anxiety among those who had friends on board, and there was one who watched at the wharf until midnight on Friday, and when the good news was telegraphed—"the Arago is below"—he went home to his friends inexpressibly happy. The next morning, on going early to the ship to welcome the bride of his heart, he found that "the soul of his soul's idol" had just departed. The cold casket was there, but the beautiful jewel was gone. It is a sad thing, at best, to fix one's affections on those lovely, yet perishable beings, whose brittle hold on life—

——"Is like the spider's thread,
That breaks at every breeze."

## Mr. Webster on Cooking Potatoes—to Fletcher Webster.

GREEN HARBOR, May, 1840.

DEAR FLETCHER: I send a quarter of a lamb to roast, and if not too rainy will come to dine with you. Tell Mr. Baker the hour.

Potatoes. Let these potatoes be peeled early, and thrown into a basin of cold water till time to cook them. Let them be boiled in a good deal of water. When done, pour off all the water, shake up the potatoes a little, hang on the pot again, and let the potatoes dry two or three minutes, and then bring them to the table. I remember when we heard Hannah Curtis shaking her pot we knew that dinner was coming.

I should be glad to know what Rev. Mr. Stuart says. D. W.

BELOIT COLLEGE.—The catalogue of this institution for the current year, has just been published. There have been one hundred and sixty four students in attendance in the different departments during the last year. The college is in a flourishing condition, and for thoroughness in its discipline as well as in the instruction given, it is equal, and we think superior to any other similar institution in the western country.

The Faculty at present consists of the following persons, who are well qualified for their stations:—President, Rev. A. L. Chapin, D. D.; Professors, Miles P. Squires, Jackson J. Bushnell, Joseph Emerson, Franklin W. Fiske, Wm. Porter, John W. Fiske; Principal of Preparatory Department, Peter McVickar.

The winter term of the College commences the 7th of January.—*Beloit Journal.*

MATTERS AT MADISON.—The State *Journal*, of Monday says:

The Supreme Court met at the Capitol this afternoon to hold the winter term. There are a large number of State cases on the docket, of others quite a limited number. The excitement of the Presidential campaign has probably been unfavorable to litigation.

The Commissioners appointed to investigate the matters connected with the Lunatic Asylum contract meet here to morrow.

## Report of the Secretary of War—Hon. Jefferson Davis, of Mississippi.

STRENGTH OF THE ARMY.

The authorized strength of the [illegible] is 17,894 men. The actual strength at the date of the returns, July 1, 1856, was 1[illegible]. The number of enlistments made during the twelve months ending Sept. 30, 1856, was 4,440. The number of offers refused on account of minority and unfitness for service was [illegible],594. The number of casualties during same time was [illegible]696, of which [illegible] were by desertion.

INDIAN TROUBLES.

The Indian difficulties in the West have been successfully terminated, except with the Cheyennes.

A vigorous campaign has been projected against the Florida Indians, Gen. Harney commanding the military post.

WESTERN [illegible].

The expense and embarrassment to the service resulting from the present policy of locating military posts in advance of settlement, and along emigrant routes across the continent, continue to be enormous, without any corresponding benefit to the country or frontier, and complete revolution of the whole system is urged.

PAY OF ARMY OFFICERS.

The great number of resignations in the army show the necessity for an increase of pay. It evidences a policy injurious to professional pride, while the hard service and frontier stations of the officers require of them sacrifices which no other officers of the government are called upon to make. The expense of living has been greatly increased, and the pay is about the same as it was fifty years ago. It is bad economy, the report continues, to drive the [illegible] active and intelligent from the service which they adore.

OLD AND NEW FIRE ARMS.

The operations of the national armories have been restricted to the completion of new models for small arms, and the alteration of old models to the long range rifled arm, and to the preparations requisite for the exclusive manufacture of the adopted new model, which is a rifled arm such as is commonly called the Minie Rifle, with an improvement of the lock after Maynard's plan. The alteration of the common flint lock to the self priming has been effected to a limited extent. The report recommends the alteration to this model of all the old arms of the United States, including those distributed to the States. There are, altogether, upwards of half a million.

ARSENALS.

The arsenals at Watervliet, N. Y., and Fayetteville, N. C., are recommended to be used for arsenals of construction, for which an extension of the buildings is required.

A NATIONAL FOUNDRY.

The Secretary renews his recommendation for the establishment of the national foundry for casting guns.

FORTIFICATIONS.

The sea coast fortifications are progressing, but there is much yet to be done before many of the most important will be efficient. The fortifications for harbor defences are held to be most efficient, and reference is made to the failure of formidable naval armaments against fortified places in the Black Sea and the Baltic as showing conclusively that properly constructed fortifications are a sure reliance against the most formidable fleets.

A RETIRED LIST.

The Secretary renews his recommendation for a retired list of disabled officers as indispensable to the efficiency of the service.

## The Emigrant Road to the South Pass.

Col. Wm. H. Nobles, the Commissioner appointed by Government to locate the road from Fort Ridgely in this territory to the South Pass of the Rocky Mountains, arrived in town yesterday. Col. N. and staff have been absent from St. Paul about five weeks, and have located the road westerly from Fort Ridgely about 1[illegible]0 miles to the Hole in the Mountain. Here a depot has been established, and will be the starting point on the resuming of operations in the spring.

The route adopted by the party is reported as a much better one than was anticipated for an emigrant route. The country is almost entirely prairie, but plenty of water was found as often as once in five miles, also, a reasonable amount of timber around the borders of the numerous lakes which everywhere dotted the vast expanse spread out before them.

The whole country from the Minnesota river to the Mountain has been burnt over this fall, which made it exceedingly difficult and expensive to get supplies to the teams, as they had to draw hay for more than a hundred miles. This [illegible] stopped further operations this winter. A portion of the party has been left at Hole in the Mountain to take charge of the establishment; the rest have returned for the winter.

Hole in the Mountain is so called from a deep ravine through the high bluff made by the passage of a tributary of the Big Sioux. The road will be located through this ravine.

Not an accident has occurred to any of the members of the party or the team, nor sickness taken place, and they return in good health, looking the better for their recent exposure and fatigue.—*St. Paul Min.*

SIX MILLIONS OF DOLLARS.—The Mercantile Marine Insurance Company publishes the startling statement that it has paid during the last three years, over six millions of dollars to the merchants for marine losses, or two millions per annum. And yet the Company is sound, solvent and flourishing, suggesting another startling fact in regard to the enormous amount which the merchants must have paid into the Company in the meantime in the shape of premiums on policies.—*N. Y. Mirror.*

## "Stand by the Rope, I am going to him!"

WATERVILLE, WAUKESHA CO.,
December 3d, 1856.

MESSRS. EDITORS:—On the morning of the 1st inst., four small boys broke through the ice on the Lake near the School House, at this place, ten or twelve rods from the shore. One of the boys had attempted to rescue his brother, and had himself fallen in. The alarm was soon given, and the villagers hastened to the scene, but the ice was so thin that they found it impossible to afford any relief.

At this moment a young man named JOHN ADAMS, about eighteen years of age, came forward, and pulling off most of his clothes, took a long fishing spear and plunged into the Lake, and succeeded in rescuing two of the Lewis boys—one of whom was just sinking. He then started for the third and was barely in time to save a little fellow ten years of age. By this time ADAMS was nearly exhausted, but another boy still remained in the water, and seeing his mother standing in deep distress, a witness to her son's almost inevitable death, his noble spirit could not resist her appeals. He said to her, "I *will* save your son or die!" Tying a rope around himself, he told those on shore to pull him in if he sank, and crying out, "Stand by the rope, I am going to him," he plunged in again and swam out some ten rods, breaking the ice with his hands. He reached the boy just as he disappeared, seized him, brought him safely out, and restored him to the arms of his mother, amidst the tears and congratulations of men, women and children. It was the most thrilling scene our people ever witnessed. Not one boy or man in ten thousand, would or could have done what JOHN ADAMS did, in this awful emergency. Such an act of self devotion and true heroism, deserves far more than a commendatory notice in the newspapers, but, after all, the consciousness of having thus bravely and successfully performed it is perhaps his best reward. It will never be forgotten by the people of this village and vicinity.—*Cor. Waukesha Plaindealer.*

## THE NEGROES RISING.

### APPREHENSIONS OF SERVILE WAR.

LOUISVILLE, Dec. 4.

Hopkinsville, December 3.—Our little town is up in arms at the present writing. "The negroes are marching upon us," is heard from every mouth. This morning several messengers arrived from Lafayette, a small town 18 miles south of Hopkinsville, calling on the citizens of this place to come to their assistance, as they were momentarily expecting an attack from about six hundred negroes. About one hundred and fifty persons left immediately for the scene of war. They were under the immediate command of both Captains Jones and Jackson, and Sheriff Gowan.

Hopkinsville is strongly guarded. It is rumored that we shall be attacked to night. I will write you again to morrow, would telegraph, but all communication has been cut off, the telegraph poles being cut down. Our whole community was thrown into a state of intense excitement this morning upon receipt of the following letter from Lafayette:

VIGILANCE COMMITTEE ROOMS,
Lafayette, Ky., Dec. 2.

Gentlemen of Hopkinsville: From reliable information we expect an attack from the negroes of the Iron Works, on our town to morrow morning—perhaps to night. Please come to our assistance, as we are in great danger.

## [illegible] Says—A Valuable Contribution.

Everybody knows Squire ——, of this city. He was a [illegible] Buchanan man all through the campaign, thought the Union in danger, and [illegible] followed the advice of his party papers [illegible] believe [illegible] that the Republicans [illegible] He never gave expression to [illegible] sentiment of Ben Perley Poore when [illegible] "Kansas be d—d—it must [illegible] owing to the remaining influence of [illegible] in the church.

These antecedents are necessary to the proper appreciation of a recent incident that has somewhat excited the risibilities of the Squire's friends.

Not long since the Squire indulged in the luxury of a new overcoat. It was got up without regard to expense, and designed for extra occasion. We have never seen the Squire look more imposing than when he wore it. The glossy folds fell round him with something of the grace and grandeur of the Roman toga, and called up visions [illegible] of the *poet* and consul [illegible] dignity.

A short time ago the ladies of Madison set about getting up a contribution of clothing for the suffering Kansans. Among those who engaged in it was the good wife of Squire ——. A large box was duly filled with good, substantial wearing apparel, some entirely new, some partially worn, but a little out of date in point of fashion, and started it on its way last Saturday. On the following morning the Squire prepared for church as usual, but was unable to find his overcoat. After some diligent search and some perturbation of spirit, he proceeded to institute an inquiry, when we may suppose the dialogue to the following effect occurred:

"Wife, what have you done with my new overcoat? I have looked high and low and can't find it [illegible]"

"Don't it hang in the hall?"

"No, it don't hang in the hall."

"Well, that is strange," coming forward to make a personal inspection.

"Why, isn't that it," pointing to a coat [illegible] pending [illegible] in the slightly darkened hall.

"No, that's my old one."

"Well then—" [illegible] of consternation.

"Well what," gasped the Squire in a state of nervous excitement.

"I declare I guess that I—I must have—the hall is a little dark and I didn't notice particularly—I must have put your coat—supposed it was the old one—must have put it in with the—*the Kansas contributions!*"

"Kansas be——"

But the bells were already making their "Sabbath music,"

Sprinkling with holy sounds the air,

and calling the devout to the place of worship.—The Squire heard the call, left the sentence unfinished, thought of Job and his manifold tribulations and the double blessing that rewarded his trials and his patience, drew on his old coat, assumed a cheerful look, and went to church.—He has made a handsome contribution to Kansas, he has cast his bread upon the waters, and we trust that it will be returned ere many days.—*Madison State Jour.*

SETTLERS ON THE EVEN SECTIONS.—The Oshkosh *Democrat* has the following paragraph, which contains matter of great interest to many settlers through the region drained by the Fox River:

TO THE SETTLERS ON THE EVEN SECTIONS.—We are informed by good authority that the settlers on the Even Sections, who have paid their money to the Improvement Company, will have their titles secured them by the State, when the State obtains a title to the lands by virtue of an act passed at the last session of the Legislature. We have not seen the Act.

# MARINE.

PORT OF MILWAUKEE—Dec. 10, 1856.

### CLEARED.

☞ The propeller *Sun* left for Chicago yesterday, cutting her way out through the ice on the river, her bows having been covered with iron for the purpose.

### MARINE INTELLIGENCE.

☞ The propellers *Buckeye* and *Young America* of the Northern Transportation line, passed up yesterday for Milwaukee and Chicago. They will be the last boats to pass the Straits this fall. The *Ogdensburgh* and *Bay State*, of the same line, passed down for Ogdensburgh yesterday.—*Det. Adv. 9th.*

THE BOATS.—The steamer May Queen arrived from Cleveland yesterday and now goes into winter quarters. The steamer Bay City arrived from Sandusky, and also lays up for the season.

The May Queen, Ocean and Bay City have closed an exceedingly successful and fortunate season.

The steamers Sam Ward and Magnet which left here some days since for Saginaw, have returned, not being able to get there on account of the ice. The Sam Ward went within six miles of the mouth of the river on which men were crossing in sleighs. The Ward will now lay up unless it is thought proper to send her one or two trips to Port Huron.

The Forest Queen expected from Port Huron, had not arrived up to six o'clock last evening.

The Tu[illegible] J. D. Morton is to go to Port Huron and Lexington to-day. She leaves Craig's dock.—*Detroit Ad. Tribune 9th.*

PROPELLER ONTONAGON.—There is some anxiety felt by the owners of this vessel here for her safety. She left this port Nov. 27th under command of Capt. Ben Wilkins, for Collingwood. She was seen at Mackinac, Sunday week, as the propeller Free State passed, which point is only 2 hours sail from Collingwood and nothing is known of her since. Other propellers making no mention of her, she may be among the numerous islands east of Lake Huron or in Georgian Bay, and Capt. Wilkins who sailed the Queen City last year in the Collingwood line is at home in these waters.—*Chicago Tribune.*

## Scrofula and Salt Rheum.

Of four years standing cured by Carter's Spanish Mixture.

WOOSTER, Wayne Co., Ohio [illegible]

Messrs. BENNETT & BEERS.

Gentlemen:—Having for four years past been afflicted with Scrofula in its worst form, without finding relief in our best physicians, I was solicited by a friend to try Carter's Spanish Mixture. It gives me pleasure to state that before finishing the first bottle the disease relaxed. I then ordered two more bottles, and with heartfelt gratitude, I state to you the fact that two bottles of your excellent preparation has entirely cured me.

The third bottle I gave to a friend who had been suffering with Salt Rheum for a length of time, and he, as myself, owes his restoration to health to the virtues of Carter's Spanish Mixture. You are at liberty to use this letter in any way you may think proper that will benefit the afflicted.

Your obedient servant,

## Dalley's Magical Pain Extractor.

THE great and principal characteristics of DALLEY'S MAGICAL PAIN EXTRACTOR consist:

1st. Of its never failing and unique property, as applied to any external injury, TO CHECK INFLAMMATION instantly and rapidly to reduce it. This feature constitutes its great power to alleviate the pain of Burns and scalds, and of other painful diseases, in so incredibly short a space of time, and as will appear from the few testimonials hereunto annexed. Every intelligent mind is fully aware that, in all cases of external injury, the pain produced by inflammation of the injured parts, therefore if you remove the cause the effect must cease.

2d. Its purificative properties neutralize the poison that may lurk in the system and will, when applied to the sores, draw rapidly all impure matter to the surface and eject it—hence the great discharge it produces from sores occasioned by burns—and when applied to old inveterate sores, Salt Rheum, or other cutaneous diseases.

Each box of GENUINE DALLEY'S PAIN EXTRACTOR has upon it a Steel Plate Engraved label with the signature of C. V. CLICKENER & CO., proprietors, and HENRY DALLEY, manufacturer. All others are counterfeit.—Price 25 cents per box.

☞ All should be addressed to C. V. Clickener & Co., 81 Barclay street, New York.

Sold by all Druggists and Medicine Dealers throughout the United States. oct11d112d&w3m

[illegible] diseases consequent upon a disordered

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

### CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
